FOR N.C.R. READ NCR.

N.C.R. used to be an abbreviation for 'National Cash Registers.' Not any more. We've been plain NCR Limited for some time now. Our change of name reflected a change in emphasis for us.

While we're still the largest suppliers of electronic equipment for the retail trade, we've also moved into many other fields.

We're one of the largest suppliers of computer systems in the world.

With, in our latest 8000 Series, a range of systems that are truly compatible with each other.

We also have computer data centres which hundreds of companies throughout the country use virtually as their own computer departments.

We have our own micrographic division supplying microfiche systems; as well as a microfilm bureau.

Our Systemedia operations provide all ancillary requirements for the operation of business system installations.

And we are a worldwide leader in the field of electronic banking equipment – including many of the automatic tellers that you often see outside banks.

One area in which we have not changed is the provision of first class field engineering service which continues to ensure the on-going protection of customers investment in NCR equipment.

So when you next read 'NCR' you'll know what it stands for.

NCR Computers. Designed to grow with you.
